Improving Global AML/CFT Compliance: On-going Process, 18 October 2013

Paris, 18 October 2013 - As part of its on-going review of compliance with the AML/CFT standards, the FATF has to date identified the following jurisdictions which have strategic AML/CFT deficiencies for which they have developed an action plan with the FATF. While the situations differ among each jurisdiction, each jurisdiction has provided a written high-level political commitment to address the identified deficiencies. The FATF welcomes these commitments.

A large number of jurisdictions have not yet been reviewed by the FATF. The FATF continues to identify additional jurisdictions, on an on-going basis, that pose a risk to the international financial system.

The FATF and the FATF-style regional bodies (FSRBs) will continue to work with the jurisdictions noted below and to report on the progress made in addressing the identified deficiencies. The FATF calls on these jurisdictions to complete the implementation of action plans expeditiously and within the proposed timeframes. The FATF will closely monitor the implementation of these action plans and encourages its members to consider the information presented below.

Albania

In June 2012, Albania made a high-level political commitment to work with the FATF and MONEYVAL to address its strategic AML/CFT deficiencies. Since then, Albania has taken steps towards improving its AML/CFT regime, including by parliamentary approval of new legislation aimed at addressing deficiencies in the regime for freezing terrorist assets. However, the FATF has yet to review the new legislation and certain strategic AML/CFT deficiencies remain. Albania should continue to work on implementing its action plan to address these deficiencies, including by: (1) ensuring that the new legislation establishes and implements an adequate legal framework for identifying, tracing and freezing terrorist assets; and (2) enhancing the framework for international co-operation related to terrorist financing. The FATF encourages Albania to address its remaining deficiencies and continue the process of implementing its action plan.
