Subject Person Information

Subject Person Information (1)

Q1

Subject persons are required, for each of the questions included in this questionnaire, to choose the answer option that is best suited to the subject person. The FIAU acknowledges that the answer options defined by it do not always fully capture the actual situation within each subject person. When choosing from the answer options available it is therefore important to select an option that is a true reflection of the actual situation within the subject person's operations. In the text box, you can formulate general remarks on the subject person's operation. Please note that these general remarks are not taken into account in the initial automated analysis of the answers submitted.

The answers submitted are subject to quality checks by the FIAU from time to time, and therefore it is essential to provide a true and fair reflection of the current situation.

What are the 3 highest interface risk factors resulting from the BRA?

[Answer if Q1 is Low, Lower Medium, Medium, Higher Medium, High, Very High]

For this question, you are required to identify and list the three highest residual risk factors across the following categories: customers, products/services, geography, and interface. If for instance, the BRA identifies two high-risk factors under the customer category, while the remaining factors in this category are classified as medium or low risk, you should use your judgmental analysis to determine and list the most significant risk factor from the medium-risk category for the third selection.
