Elena Tabone
Financial Intelligence Analysis Unit

Compliance and Supervision Platform for Assessing Risk (CASPAR)

- Allows the FIAU to gather information from multiple sources.
- Translates the information gathered from multiple sources into the numerical scoring of risk indicators.

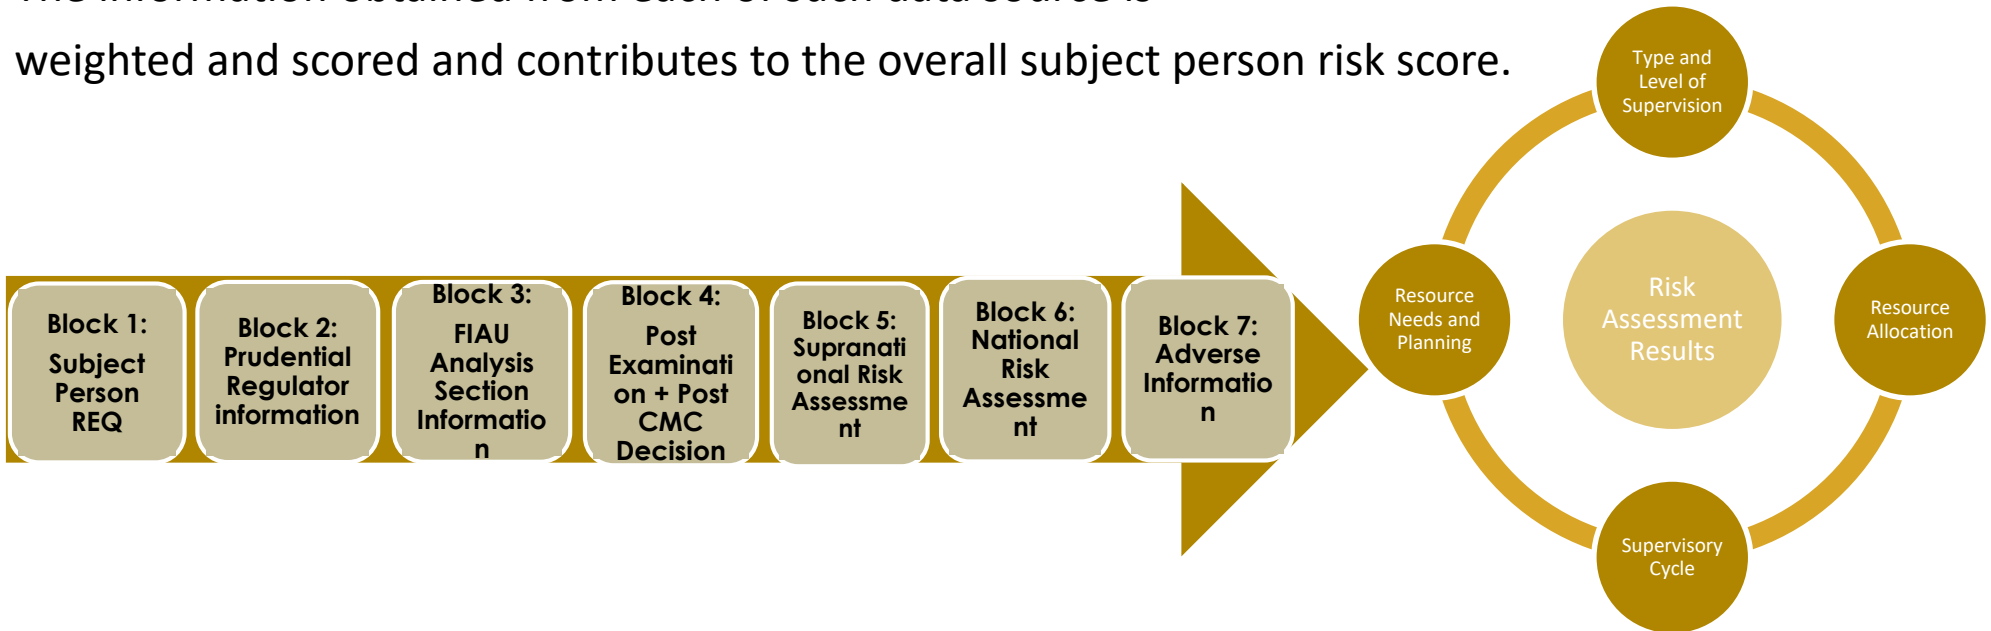

- The Residual Risk Rating will then determine the frequency and level of supervision.

Enhanced FIAU Risk Assessment Scoring Methodology

Risk assessments form the basis for the development of a supervisory strategy for each subject person and for the sector as a whole.
